

# Websites with anti-virus software for computer (student)

To ensure the security of Clarkson's network, it is required that all student owned computers run an anti-virus program. There are many free software packages available for your use, including the following:

<a href="#">Avast!</a>	Anti-Virus program for Windows. The home edition is freeware for noncommercial users.
<a href="#">AVG Free edition</a>	Free edition of the AVG anti-virus program for Windows and Linux.
<a href="#">Avira Antivir</a>	Free anti-virus software for Windows, Linux, Free BSD and Solaris
<a href="#">BitDefender</a>	Freeware virus scanner for Windows.
<a href="#">Clam AV</a>	Freeware, GPL, Linux. Clam Av is a GPL anti-virus toolkit for UNIX.
<a href="#">ClamWin</a>	Freeware, open-source anti-virus program for Windows.
<a href="#">FProt</a>	Free anti-virus program for Linux, BSD and Solaris (personal use only)
<a href="#">Microsoft Security Essentials</a>	Free anti-virus program for Windows. <b>This is the recommended solution for Windows computers.</b>
<a href="#">PC Tools Anti-virus</a>	Free anti-virus program for Windows.
