

Printing Balance

The Office of Information Technology provides a number of high-speed laser printers located in each public access computing facility across campus. All students and faculty receive a printing quota on public access network printers.

At the start of each semesters/quarter, \$24.00 is deposited into student Printer Accounts. (This equates to 300 pages of black and white printing at .08 /page.)

- Black & white printing is \$0.08/page
- Color printing is \$0.45/page.
- Plots - \$0.75/square foot; 42" is the max width

Students can add more funds to their printing balance by going to the IT HelpDesk in CAMP 171A. Payment can be made in cash, credit card, or charging student account.

NOTE: Printer accounting funds DO NOT carry over from semester to semester.

Students can check their Printer Account balance at go.clarkson.edu/print
