

Create an Assignment

This tutorial shows how to create an Assignment from within a topic in Moodle.

Step-by-step guide

To create an Assignment:

1. Click  Turn editing on
2. Click  + Add an activity or resource within the topic area you would like to add the forum into.
3. Select  Assignment then click 
4. You must at least enter an Assignment name and should also check the Availability and Submission Types settings.
5. After you've finished setting up the Assignment, click  Save and display to view it.
